They Slept in a "Robber's Cave" Which They Had Dug in New York.

New York, Oct. 30.—William Bloom and John Picarella, playmates, aged nine and twelve, respectively, were found dead yesterday in a "robber's cave," which they had dug in a vacant lot back of their home. The walls of the cave had fallen in, burying them under several feet of earth as they were sleeping during the night.

Twenty Dollars For Two

You would not trade twenty dollars' worth of butter for two dollars' worth of real. Yet I can name bright farmers, right in this neighborhood, who feed young stock butter fat worth 25 to 35 cents a pound, when oil meal would be just as good for them. If you feed milk and skimmed by hand, you are leaving one-quarter to one-half the butter fat in the milk. You are feeding valuable butter to produce cheap calf fat or pig fat. Gentlemen, that doesn't pay.

THE SHARPLES TUBULAR CREAM SEPARATOR

will save that cream—top that loss—and put you that much ahead. Come and see the Tubular. Let me explain how and why it's the cleanest skimming, lightest running, most durable and easiest handled cream separator made. The Tubular is very simple. I'll be pleased to take it all apart and explain exactly how it will pay for itself one to three times each year in increased dairy profits.

WASHINGTON.

The following verses are contributed by a rising young poet; that is to say, one who ought to be "sent up."

The Wilson Flag-Raising at Washington.
"Hurrah for Wilson" was the cry
When to the breeze the flag did fly.
Says Willie Pepper, with a grin,
"Hurrah for Wilson twice again."

Brave Eddie Houghton in silence stood;
It wasn't expected that he would.
He laid his head against the pole,
As if he suffered in his soul.

But Charlie Mac, was surely brave;
He rent the air with the cheers he gave.
"Boys," says Im Palmer after thought,
"We're all the friends that Wilson's got."

Now rose for the "School Master" three good cheers,
And three for the beast with the great big ears.
Five Charlies swung five willing hats,
While a Ball Moose urchin hollered "Rats!"

"Now three for Marshall" was the call.
'Twas the biggest noise we've heard this fall.
While Bertie pitched his voice so high,
He knocked a hole clear through the sky.

The flag went up with right good will.
The Taft men all kept very still.
But clunked at the solemn thought
That so much fuss should go for naught.

Shortage of Coal Here and Little Prospect of Improvement in Conditions.

The high school team defeated the seminary team 14 to 0 at football yesterday.

Montpelier is in a bad condition from lack of coal and there is no definite prospect of an improvement of conditions.

One Montpelier dealer has orders for 2000 tons on his books, with little to offer in the way of compensation.

Another dealer received two carloads last week, with hundreds of orders to fill, and has been dealing it out in half ton lots to make it last as long as possible. In this city the price is \$7.75 per ton, in Burlington \$10, in Barre and Northfield \$8.50 and \$8.75. The difficulty appears to be not in the scarcity of coal but from lack of cars to convey it, and by the time the supply of cars is sufficient, there will be snow blockades to contend with, so the outlook is not of the best. The Central Vermont, New York Central, Lehigh Valley and other large railroads are sending all their available cars to the coal fields, with the order that they shall be used to carry coal only to stations on their line.
